

DAAD LEGALLEAD WINTER SCHOOL IN GERMANY

CREATING IMPACT THROUGH LEGAL LEADERSHIP

**6 - 11 NOVEMBER
2023 IN COLOGNE**

LegalLead is a DAAD Taz'iz partnership between the Al-Nahrain University (Iraq), the University of Carthage (Tunisia) and the University of Cologne (Germany). The project seeks to build up and strengthen law clinics at the universities on the fields of female empowerment and good governance.

The DAAD project encourages law students to become active at the law clinics of their universities and to gain practical experiences on an international level during their studies. The law clinics are working closely together with a network of civil societies and NGOs to solve relevant practical cases on the fields of Female Empowerment and Good Governance. Law clinics allow therefore to build up networks between universities and the outside world, to improve your job market perspectives and to contribute to the development of democratic institutions.

Become a part of the project and participate in the Winter School in Cologne, Germany. The Winter School will teach you to build up law clinics and improve your knowledge on female empowerment and good governance.

You can apply [here](#), further information on the project and the application conditions can be found [here](#).

- The deadline for accepting applications is July 16th
